# Support Mechanisms

## [Elementary Students]

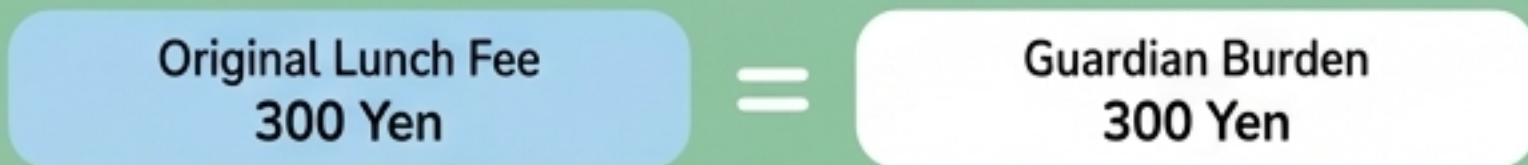

By combining the fundamental burden reduction from the national government (304 Yen) and the city's exemption for supporting child-rearing households (42 Yen), the guardian's burden becomes 0 Yen.

## [Junior High Students]

Through the city's exemption for supporting child-rearing households (102 Yen) utilizing national grants (Local Revitalization Grant for Price Inflation Measures), the burden amount from the previous year is kept unchanged.

## [Kindergarteners]

The special exemption for supporting child-rearing households implemented by the city in FY2024 and FY2025 has ended, resulting in the original amount per meal (300 Yen).

# For Safe and Nutritious School Lunches

## Unchanging Deliciousness and Peace of Mind

Even amidst fluctuations in ingredient prices, Kikugawa City will continue to prioritize the quality and safety of school lunches to support the healthy growth of our children.

If you have any questions about the school lunch fees or the system, please feel free to contact the "School Lunch Center" listed on the front side.
